USE OF FORCE LISTENING SESSIONS

Join the Office of the Attorney General for upcoming listening sessions in North, Central, and South Jersey where law enforcement, residents, and organizations will have an opportunity to give feedback on the state's rules governing the use of force by law enforcement.

As part of the review process, the Attorney General's Office is seeking input from police officers, civil rights organizations, religious leaders, victims' advocates, youth groups, and community members. Their comments and perspectives will be taken into consideration as potential policy amendments are weighed.
